

DARK WEB MONITORING

The increase in data breaches, rampant password reuse, and overall unfamiliarity of proper cybersecurity practices make small and medium-sized business an easy target for cybercriminals. Dark web security services are helping MSPs provide peace of mind when it comes to the ever-evolving threat landscape.

PRODUCT COMPARISON: Breach Secure Now vs ID Agent

Both Breach Secure Now and ID Agent¹ provide Dark Web Monitoring services to IT service providers and resellers. With vetted data from human operatives, both businesses work hard to ensure rapid on-boarding, verified data, and sales & marketing support. Take a closer look and see what sets Breach Secure Now apart as a channel-only vendor.

THE BREACH SECURE NOW DIFFERENCE

THE INFOARMOR ADVANTAGE

With data provided by InfoArmor, a trusted data source for over 100 of the Fortune 500, you can feel confident that our data is accurate and reliable. With a breach score confidence rating, breach detail explanation, and compromised data such as passwords - you've got real data to justify additional security measures.

Real-time, vetted intelligence

Advanced threat intelligence

Breached password reporting

EDUCATION

What good is monitoring without remediation? We pride ourselves on being a complete end-user security solution. Security Awareness Training is always included whether it's annual, as part of the Partner Subscription, or weekly with the Breach Prevention Platform.

¹All product names, logos, and brands are property of their respective owners. All company, product and service names used are for identification purposes only. Use of names, logos, and brands does not imply endorsement. ²Dark Web Monitoring is an add-on to the Partner Subscription (\$99/mo). ³The Breach Prevention Platform (BPP) is a per client add-on to the Partner Subscription (\$99/mo) and is priced based on the number of end-users. ⁴Unlimited personal email address dark web scans are included for all end-users enrolled in the BPP.
