

BREACH SECURE NOW SERVICE BREAKDOWN

WHAT PRODUCT IS RIGHT FOR MY CLIENT?

Being built for Managed Service Providers means we have a variety of products built to fit in perfectly with your service offering. With variety comes choices, and we want to help you find exactly which one of our white-label, per-client upgrades is right for you and your clients!

STEP 1: BECOME A BREACH SECURE NOW PARTNER

The monthly Partner Subscription cost of **\$99/mo** not only gets you access to our white-label product-line, but also gives you access to over 70 social media ads and a growing library of sales & marketing content, baseline security assessments consisting of a one-time dark web scan, phishing simulation, and annual training course - all for unlimited organizations, and a complementary Breach Prevention Platform subscription (BPP) for your MSP organization.

DARK WEB MONITORING

Want to provide dark web monitoring without having to upgrade clients to the BPP? Add-on a block of dark web monitoring for an additional cost.

Boost up your Partner Subscription with one of our Partner upgrades!

PARTNER HIPAA COMPLIANCE

Are you a Business Associate that needs to comply with HIPAA? Add-on our Partner HIPAA Compliance Program for an additional cost to upgrade your internal BPP to our HIPAA BPP!

STEP 2: CHOOSE A PER-CLIENT UPGRADE

While our Partner Subscription allows you to add unlimited client organizations to the PII Protect portal to run one-time dark web domain scans, one-time simulated phishing campaigns, and roll-out an annual security training course, our robust selection of per-client upgrades allow you to provide continuous and comprehensive services, customizable for all your clients. Checkout our feature comparison chart [here](#).

THE BREACH PREVENTION PLATFORM (BPP)

This robust solution adds high-value to your MSP offering and focuses on the human security, compliance, and cybersecurity risks that face your clients in today's threat landscape. This all-in-one solution includes our employee risk detection tool, EVA, which analyzes metrics from dark web monitoring, weekly mini-security training, unlimited simulated phishing, and more to identify and mitigate high-risk employees.

SELECT A VERTICAL

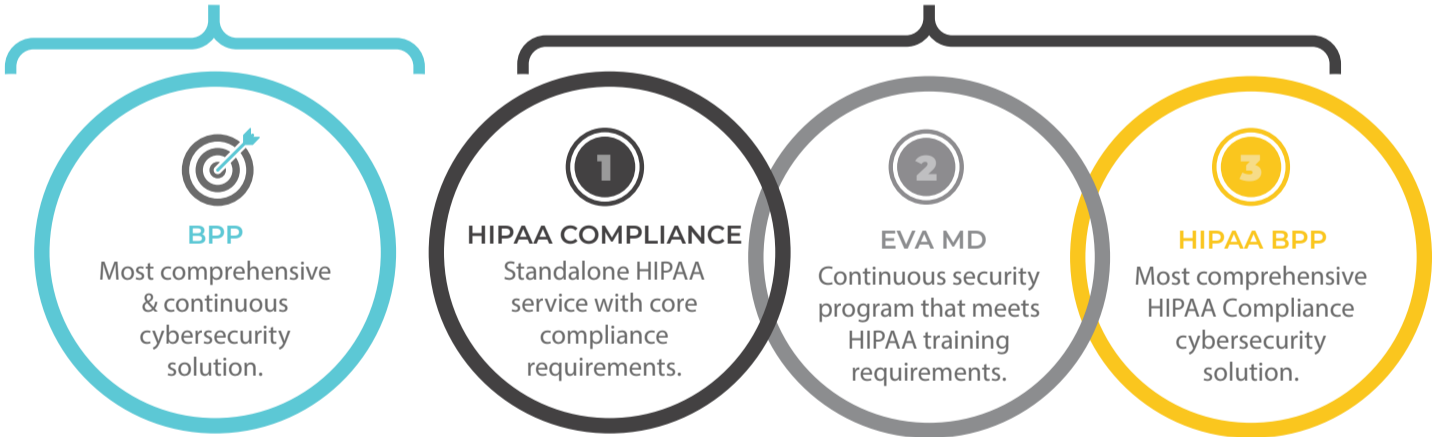

Federal and State regulations are becoming an increasing concern for small to medium-sized business. To best address these concerns and requirements, we've broken our products into two different product lines, or verticals, to better serve you and your clients!

GENERAL SECURITY

Built to meet "reasonable cybersecurity standards" and for organizations that electronically store personally identifiable information (PII).

HEALTHCARE VERTICAL

Built to address the handling of protected health information (PHI) for Covered Entities (CEs) and Business Associates (BAs) who need to comply with HIPAA regulations.

CHOOSING THE RIGHT HIPAA SERVICE

With three white-label, flexible solutions tailored to the healthcare industry, it's important to choose the right service for you and your clients. Whether you're looking for a simple HIPAA training solution or a full HIPAA compliance package, we have you covered. Looking for outsourced support? Ask us about HIPAA Secure Now!

HIPAA COMPLIANCE

Meets core annual HIPAA requirements with a Security Risk Assessment, Privacy & Security Training, and Policies & Procedures. This is a standalone HIPAA compliance service and does not include any continuous training elements or cybersecurity services.

EVA MD

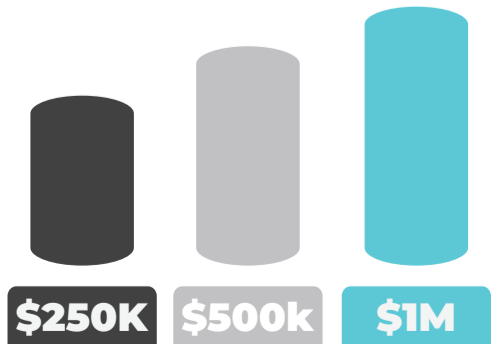

Looking to get your foot in the door of healthcare organizations? Does your client handle compliance themselves or with another vendor? This robust solution mitigates risks with continuous dark web monitoring, simulated phishing, and HIPAA Privacy & Security training.

HIPAA BPP

Meets core annual HIPAA requirements while improving their security posture. This all-in-one solution includes the BPP basics, but with HIPAA elements like our HIPAA Security Risk Assessment, Privacy & Security Training, and Policies & Procedures.

STEP 3: ADD A CYBER INSURANCE POLICY

In today's threat landscape, it's important to have cyber insurance coverage that provides financial and breach response assistance in the event of a security incident. Our comprehensive cyber insurance policies cover social engineering, ransomware, fines and penalties such as HIPAA or GDPR, PR damage control, legal expenses, and more. Available for MSP and client organizations with an active per-client upgrade subscription. US companies only, additional restrictions apply for the \$500k and \$1M policies.
